NETWISE : Netwise(TM) announces general availability of TransAccess(TM) for Microsoft Windows NT

April 24, 1995

Byline: Business Editors/Computer Writers

...technologies. To an A/I encapsulated mainframe transaction, an NT process looks like a mainframe COBOL program , so mainframe programmers are totally shielded from NT technologies. No special "sockets" or API verbs must be learned, coded or inserted into either the NT or mainframe... native code for both environments. Developers can concentrate on building enterprise applications rather than on low-level middleware API coding. "We believe that the core of client/server is the server," said...
